SUMMARY

I am a Computer Science Graduate with a strong focus on front-end development for both web and mobile applications. I specialize in ReactJS, NextJS, TailwindCSS, and React Native. In addition, I have hands-on experience with Strapi for backend development and a foundational understanding of Express.js and MongoDB. Currently, I work as a React/React Native Developer, honing my skills in front-end technologies while expanding my knowledge in backend development. My long-term goal is to become a well-rounded Full Stack Engineer by continuously enhancing my expertise in both front-end and back-end technologies.
